In the event that you have records responsive to any of the above requests that are not being provided due to any assertion of privilege or for any other reason, please provide under separate cover and without delay all responsive, non-privileged records. In addition, please provide an index identifying all responsive records that you have withheld, and for each such record provide the title, its authors and all recipients, its general subject, and the basis being asserted for withholding the record.

We request that the above records be made available to us as soon as possible. If that results in two or more document shipments and separate invoices, Union Pacific prefers to receive two or more document transmittals than to suffer any delay in production. If our request requires copying costs, we agree in advance to pay such costs up to \$5,000.00. Alternatively, we would be amenable to making arrangements for an outside vendor to copy the records that you identify as responsive to this request. We are also amenable to receiving the records on a disk or in other electronic format, provided that you identify the software and format for the records, that it is software/format generally available for review of electronic records (e.g., Word, WordPerfect, Xcel), and that you include an index or some other means to determine what is on the disk(s). We would like to obtain these records in the least burdensome way for you that will enable us to obtain them quickly and efficiently. Please contact me at 303-894-6127 if you have any questions. Thank you in advance for your assistance.

Sincerely,
